Congratulations to our graduating summer 2020 accelerated students!

You did it despite a pandemic, changes to online learning, and jumping into virtual clinical, you persevered. We are so grateful for your flexibility, adaptability, and courage to head into nursing in a time like no other.

Now is the time to celebrate your successes, reflect on all you have learned, and know we will always be here as a resource for you.

Wishing all of you the very best!

Sincerely,

Dr. Robin Harris

I will be working in the Medical Intensive Care Unit at the University Hospital here in Columbia.

For as long as I can remember, I have loved to take care of people. As a child, I often pretended to be a doctor or nurse and care for my siblings and parents various pretend ailments. I spent many hours creating makeshift casts, crutches and bandages for my “patients”.

When I went to college, I knew I wanted to utilize my childhood desire to help take care of people in my future career, which lead to my decision to become a nurse.
