

JOIN OUR legacy of excellence

DR. MARILYN RANTZ - A LIVING LEGEND

Marilyn Rantz, PhD, RN, FAAN, a Curators' Professor Emerita at the MU Sinclair School of Nursing, has made remarkable contributions to nursing and health care throughout her career.

Dr. Rantz has secured significant grant funding, totaling over \$100 million, for projects aimed at enhancing care coordination, researching long-term care, developing new care delivery models for older adults, and leveraging technology to support aging in place.

In recognition of her groundbreaking contributions, Dr. Rantz was inducted as a Living Legend by the American Academy of Nursing in fall 2020. Her sustained commitment to improving the quality of care for the elderly and her pioneering research in nursing home quality over four decades have established her as an international expert in quality measurement in nursing homes and a leading figure in the field of gerontological nursing.

WHY CHOOSE MIZZOU:

- New state-of-the-art nursing building completed fall 2022
- MizzouForward - be part of a bold investment of up to 150 world-class faculty in research
- NextGen Precision Health is moving research from bench to community
- MU estimated total research expenditures of \$485 million in FY24 - marking 11 consecutive years of research growth
- One of only six U.S. universities with a true comprehensive campus, combining an academic health center, law school, engineering, veterinary medicine and MU Research Reactor in one central location
- Land-grant university - MU Extension reaches every county in Missouri
- Strategic, integrated and operational partnership with MU Health Care
- Mizzou ranks No.4 among flagship universities for best value
- Columbia, Missouri is #6 of top 100 places to live in the US

Rantz Care in Aging

Postdoctoral Fellowship

SEEKING APPLICATIONS

The Sinclair School of Nursing invites applications for a postdoctoral research fellow with an interest in aging-related research who complements our robust programs of research related to innovations to improve health and health systems for older adults across care settings.

Aging-related research areas of particular interest include Alzheimer's disease and related dementias (ADRD), health disparities, healthcare delivery, health informatics/data science, neurosciences and sensor technology.

ELIGIBLE CANDIDATES

To be eligible for this full-time, 12-month, residential postdoctoral fellowship, applicants must have completed their PhD or expect to complete their degree by July 1, 2025. Anticipated start date July 1 or August 1, 2025.

HOW TO APPLY

- Visit [Mizzou Human Resources](#).
- Select Academic Positions
- Select Prospective Employees
- Enter the Job ID: 54415 into the Search Jobs field.
- Click on position and apply for the job.
- For assistance or questions with the application process please call Rhonda Byers at 573-882-0204 or email byersrf@missouri.edu.
